

Trust Summit '26 Agenda

11:00 AM EST

Lobby Opens for Networking and Learning Lab Opens

Connect with speakers and peers and visit the Learning Lab to explore new products and features.

11:30 AM EST

The Future of Vendor Operations *with Mickey Meehan, CEO, Green Security*

Vendor management is evolving fast. Explore how automation, tighter governance, smarter data, and new operating models that reduce risk while improving efficiency across healthcare organizations.

11:45 AM EST

Strengthening Strategic Vendor Relationships *with Dominique Baker, Supply Chain Operations, Mayo Clinic, and Carter Lonsberry, Executive Director, C4UHC*

Great vendor relationships don't happen by accident. Hear how leading organizations are redefining collaboration, accountability, and transparency to create partnerships that deliver long-term value—not just transactions.

12:15 PM EST

Curating the Vendor Management Role *with Joanna Hildebrant, Sr. Director of Vendor Management, HSS*

A candid look at how Vendor Management evolved from a compliance function into a strategic enterprise program driving safety, operational efficiency, and cross-functional partnership across healthcare operations

12:45 PM EST

Product Roadmap & What's Next: Live Reveals *with Anton Vishnyak, CTO, Green Security*

See where the platform is headed. Join us for a forward-looking roadmap review and exclusive product reveals designed to solve today's challenges and anticipate tomorrow's needs.

1:15 PM EST

What Accreditors Look For: Insights from The Joint Commission *with Dawn Hall, RN, The Joint Commission*

This session clarifies common gaps, emerging focus areas, and practical steps organizations can take to stay survey-ready year-round.
